

Program LoviFlex® GSE Terminations

LoviFlex® GSE terminations are developed for paper insulated cables and are suitable for a.o. Magnefix switch gear stations. The two-part construction enables a broad application even in tight spaces.

Voltage	Type	Nom. Cross Section mm²	Diameter mm max. on cable
12 kV	GSE	Al/Cu 16 - 95	85
		Al/Cu 95 - 240	85
